

PE Policy

Establish an “active school” ethos and environment which will increase activity levels and promote health within and outside the curriculum.

Introduction

At Monksdown Primary School we recognise that the personal development of pupils plays a significant part in their ability to learn and achieve. We therefore aim to provide an education that provides pupils with opportunities to explore and develop their own values, high standards of personal behaviour, and develop a positive, caring attitude towards other people.

Aims and objectives

Physical education develops the children’s knowledge, skills and understanding, so that they can perform with increasing competence and confidence in a range of physical activities. These include dance, games, gymnastics, swimming and water safety, athletics and outdoor adventure activities. Physical education promotes an understanding in children of their bodies in action. It involves thinking, selecting and applying skills and promotes positive attitudes towards a healthy lifestyle. Thus we enable them to make informed choices about physical activity throughout their lives.

The aims of PE are:

- to enable children to develop and explore physical skills with increasing control and co-ordination;
- to encourage children to work and play with others in a range of group situations;
- to develop the way children perform skills and apply rules and conventions for different activities;
- to increase children’s ability to use what they have learnt to improve the quality and control of their performance;
- to teach children to recognise and describe how their bodies feel during exercise;
- to develop the children’s enjoyment of physical activity through creativity and imagination;
- to develop an understanding in children of how to succeed in a range of physical activities and how to evaluate their own success.

Teaching and learning style

We use a variety of teaching and learning styles in PE lessons. Our principal aim is to develop the children’s knowledge, skills and understanding and we do this through a mixture of whole-class teaching and individual/group activities. Teachers draw attention to good examples of individual performance as models for the other children and we encourage the children to evaluate their own

work as well as the work of other children. Within lessons we give the children the opportunity both to collaborate and to compete with each other, and they have the opportunity to use a wide range of resources.

In all classes there are children of differing physical ability. Whilst recognising this fact, we provide suitable learning opportunities for all children by matching the challenge of the task to the ability of the child. We achieve this through a range of strategies:

- setting common tasks that are open-ended and can have a variety of results, e.g. timed events, such as an 80m sprint;
- setting tasks of increasing difficulty, where not all children complete all tasks, e.g. the high jump;
- grouping children by ability and setting different tasks for each group, e.g. different games;
- providing a range of challenge through the provision of different resources, e.g. different gymnastics equipment.

PE curriculum planning

PE is a foundation subject in the National Curriculum. Our school uses the national scheme of work as the basis for its curriculum planning in PE. We use PE Hub as our main scheme of work. As required in Key Stage 1, we teach dance, games and gymnastics, plus one other activity: outdoor and adventurous activities. In Key Stage 2 we teach compulsory dance, games and gymnastics, plus three other activities: swimming and water safety, athletics and outdoor and adventurous activities.

We plan PE activities so that they build upon the prior learning of the children. While there are opportunities for children of all abilities to develop their skills, knowledge and understanding in each activity area, there is planned progression built into the scheme of work, so that the children are increasingly challenged as they move up through the school.

The Foundation Stage

We encourage the physical development of our children in the reception class as an integral part of their work. As the reception classes are part of the Foundation Stage of the National Curriculum, we relate the physical development of the children to the objectives set out in the Early Learning Goals, which underpin the curriculum planning for children aged three to five years of age. We encourage the children to develop confidence and control of the way they move, and the way they handle tools and equipment. We give all children the opportunity to undertake activities that offer appropriate physical challenge, both indoors and outdoors, using a wide range of resources to support specific skills.

Teaching PE to children with special educational needs

At our school we teach PE to all children, whatever their ability. PE forms part of the school curriculum policy to provide a broad and balanced education to all children. Through our PE teaching we provide learning opportunities that enable all pupils to make progress. We do this by setting

suitable learning challenges and responding to each child's different needs. Assessment against the National Curriculum allows us to consider each child's attainment and progress against expected levels.

When progress falls significantly outside the expected range, the child may have special educational needs. Our assessment process looks at a range of factors – classroom organisation, teaching materials, teaching style, differentiation – so that we can take some additional or different action to enable the child to learn more effectively. This ensures that our teaching is matched to the child's needs.

Intervention through School Action and School Action Plus will lead to the creation of an Individual Education Plan (IEP) for children with special educational needs. The IEP may include, as appropriate, specific targets relating to PE.

We enable pupils to have access to the full range of activities involved in learning PE. Where children are to participate in activities outside our school, for example, a sports event at another school, we carry out a risk assessment prior to the activity, to ensure that the activity is safe and appropriate for all pupils.

Assessment and recording

Teachers record the progress made by children against the PE Key Skills. At the end of a unit of work, teachers make a judgement as to whether the child has met, exceeded or is working towards the expectations of each individual unit. They record the information in their assessment files and use the information to plan the future work of each child. These records also enable the teacher to make an annual assessment of progress for each child, as part of the child's annual report to parents. The teacher passes this information on to the next teacher at the end of each year.

Resources

There is a wide range of resources to support the teaching of PE across the school. We keep most of our small equipment in the PE store, and this is accessible to children only under adult supervision. The hall contains a range of large apparatus, and we expect the children to help set up and put away this equipment as part of their work. By so doing, the children learn to handle equipment safely. The children use the school playground and the local authority venues for games and athletics activities and the local swimming pool for swimming lessons.

Health and safety

The general teaching requirement for health and safety applies in this subject. We encourage the children to consider their own safety and the safety of others at all times. We expect them to change for PE into the agreed clothing for each activity area. The governing body expects the teachers to set a good example by wearing appropriate clothing when teaching PE. The policy of the governing body is that no jewellery is to be worn for any physical activity.

It is the responsibility of the teacher to take note of any medical conditions of individual children in their class (such as asthma, diabetes or epilepsy) so they can participate safely and as fully as possible. It should be noted that cold dry weather will exacerbate breathing problems for asthmatics and they should have their inhalers at hand if necessary.

Monitoring and review

The monitoring of the standards of children's work and of the quality of teaching in PE is the responsibility of the PE subject leader. The work of the subject leader also involves supporting colleagues in the teaching of PE, being informed about current developments in the subject, and providing a strategic lead and direction for the subject in the school. The PE subject leader gives the Head teacher an annual summary report in which s/he evaluates the strengths and weaknesses in the subject and indicates areas for further improvement.

Extra-curricular activities

The school provides a range of PE-related activities including football, hockey, athletics, basketball and dance for children at the end of the school day. These encourage children to further develop their skills in a range of the activity areas. The school sends details of the current club activities to parents at the beginning of each term. The school also plays regular fixtures against other local schools and participates in area knockout competitions. This introduces a competitive element to team games and allows the children to put into practice the skills that they have developed in their lessons. These opportunities foster a sense of team spirit and co-operation amongst our children.

Children without kit

Children leave their PE kit in school and take it home each holiday for washing. Additional school PE kits are available in school for special circumstances. If a child continues to not bring their kit then a letter is sent home as a reminder.

Inclusion and Equal Opportunities

All teaching and non-teaching staff at Monksdown Primary School are responsible for ensuring that every pupil, regardless of gender, race, culture, background and ability have the opportunity to experience education at an appropriate and challenging level. To ensure that pupils experience high standards of success, PE needs to be taught with regards to pupil's abilities to ensure progress. We aim to identify and minimise barriers to learning and take account of gender, ability, disability, social, cultural, and linguistic background when planning lessons. Provision is made to enable all pupils to participate effectively in curriculum and assessment activities. A wide range of gender specific and cultural images that challenge stereotypes will be used.

This policy ensures that certain aspects of PE are not seen as more appropriate for boys or girls. Individual teachers consider carefully the groupings they have. These might depend on the experiences the children have had in their home environments.

Accessibility and Teaching PE to pupils with Special Educational Needs

We teach PE to all pupils, whatever their ability, in accordance with the information set out in our school curriculum overviews, providing a broad and balanced curriculum to all. Teachers provide learning opportunities matched to the needs of children of all capabilities, setting and reviewing appropriate targets.

Subject Leadership

The Subject Leader will:

- Ensure that the subject is regularly discussed, reviewed and monitored within the school.
- Keep resources up-to-date and relevant, particularly in preparation for each unit of work.
- Promote good subject practice throughout the school.
- Set a good example of subject practice.
- Support long term planning for the whole school.
- Inspire learning
- Provide support and guidance to colleagues on teaching the units of work
- Purchase and organise resources
- Maintain equipment and make them easily accessible for teachers
- Attend courses for CPD and report back to staff

Policy Review
