

Year 3 Learning Letter

Hello and welcome to Year 3!

We hope you have had a lovely summer break. We are so excited for our new areas of learning and for all the fantastic work Year 3 will be focusing on throughout the first half term of the school year.

From,

Mrs Wright, Mr Dowson, Miss Gibbons and Mr Allen

Our Year 3 X is: @Year3Monksdown

Why not follow us and see all of the fantastic work we have been doing!

Important information for you

If you are sending your child in with a water bottle, please make sure it is only water rather than juice.

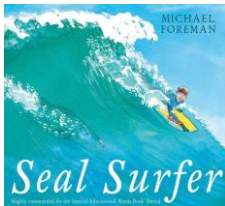

Reading books will be changed on a Friday.

PE days for each class are:

| | | |
|-----------|-----------|-----------|
| 3.1 | 3.2 | 3.3 |
| Wednesday | Wednesday | Wednesday |

Please read the homework grid on the other side for Year 3 homework.

English:

This half-term we will be using *Seal Surfer* as our narrative text with our outcome being a recount letter. We will develop writing skills including the use of paragraphs, prepositions to express time, place and cause. We will also be developing rich and varied vocabularies, learn how to structure, write and reply to a letter.

To improve our reading comprehension, we will ask questions to improve understanding of a text, learn how to draw inferences (characters feelings, thoughts and motives); justify with evidence and predict from details stated and implied. We will also use dictionaries to check for meaning.

Maths:

This half term we will focus our learning on place value, addition and subtraction.

Place value:

We begin the year with a clear focus on number sense and reasoning within 100 and exploring calculation strategies using this knowledge. Children will then develop a deeper understanding of place value of numbers to 1000 and solve problems using these numbers.

Addition and subtraction:

Children encounter addition and subtraction in a range of real-life contexts and extend their use of the column methods to calculations involving two 3-digit numbers.

$$\begin{array}{r} 38 \\ + 93 \\ \hline 131 \end{array}$$

It will be VITAL that children know, and can recall quickly, their times tables. Please practise daily using TT Rockstars.

This term we are focussing on the 3 times table (but don't let that stop you practising more than the 3s)

Wider Curriculum in Year 3

History—Our topic this half-term starts in the Stone Age and leads us into the Iron Age. We will study the life of Stone Age man as a hunter-gatherer and the development into farming. By making comparisons with life in countries other than Britain we will learn how different cultures developed over the same time span. We will investigate Stonehenge and compare it to the Pyramids of Giza.

Science—Our science focus is Rocks and Soils. We will investigate how rocks were made and the properties of different types of rocks. We will look at various types of soils and how they are formed. Researching different rock formations around the world we will discover how they were formed and how man and climate have impacted on them.

Computing— This half-term the children will learn how to program on the software Scratch.

Art— As Artists, the children will develop their technique of mixing colours, creating cave paintings using tertiary colours.

RE - Our topic for RE this half term is Christianity with the focus on the Old Testament.

PSHE - We will focus on setting personal goals, understand why rules are needed and recognise that their actions affect themselves and others.

French - Children will learn how to introduce themselves in French and ask simple questions such as 'how are you' and 'what is your name'.

Home Learning Challenges
