

Art and Craft Ideas

We have put together a range of fun art and craft ideas you can do at home with your children with things lying around the house based on our topics.

1. Read your favourite fairy tale story. Can you create a tower that will hold a doll with long hair/ a bridge for Billy Goat Gruff/ a chair for Baby Bear?
2. Look at a variety of animal prints. Can you recreate them using paint or potato prints?
3. Research the artist and author Eric Carle. Can you create an animal collage using magazine cuttings?
4. Can you create a bird feeder out of an old milk carton?
5. Can you make an observational landscape drawing of your surrounding area?
6. Research the artist Monet and his famous landscapes. He uses pointillism to paint (lots of dots). Can you create a landscape of your garden/local park in the style of Monet?
7. Can you make a 3D model of your house?
8. Research the artist Lowry and his cityscapes. Can you create your own cityscape of Liverpool looking at the different buildings of Liverpool?

We would love to see any of your creations! Please tweet us a picture if you can @MonksdownSchool or email your teacher a photo.
